Wireless Sensor Networks (Internet of Things) protocols and applications

School of Computer Science and Engineering

Radio-based Device-free Sensing (无基于无线的感应)

Battery-free step counters and activity monitors, 6LoWPAN (secure low power communications), Biometric recognition (face, gait) in wearable systems Wearable vision, Indoor and outdoor localisation Compressive Sensing 无电池计步器,无电池活动监控器, 基于IPv6的低功耗安全无线个人区域网络, 生物特征(脸,步态)识别的可穿戴式系统 可穿戴视觉 室内和室外定位 压缩感知
